

BENECOR

BENECOR FLOW METER

Benecor's meter for delivering low viscosity fluids with a turbine measuring system. Easy to install, in line or at the end of a delivery pipe, equipped with an easy-to-read, compact screen. The meter can be installed directly onto the nozzle for convenient, on-the-spot reading of the quantity delivered. Thanks to its strong casing and a sealed plug-in electronic card, this sturdy meter can be used in practically all conditions.

Features:

- Precision +/- 1% within the flow range
- Repetitiveness 0.2%
- Maximum flow rate 31.7g/min
- Working temperature -10/50°C
- Loss of pressure < 0.15 bar
- Can be calibrated

Technical Specifications:

- Turbine measuring system
- Reinforced polyamide body
- Threaded input/output, aligned male/female depending on version
- Single channel, reed switch
- Electronic card with LCD display – Partial 5 figures from 0.1 to 99999, total 6 figures from 1 to 999999
- Total resetting available
- Flow indication
- Batteries – 2 batteries size AAA
